# **Project Update:**

- On April 17th, CRC staff facilitated a meeting with all the counties, and many Commissioners of Revenue were invited to participate with their County Administrators and staff. We listened to concerns from the Counties and ideas as to how the CRC could help. It was suggested that the CRC contact the VA Tax team and get help.
- On April 22nd, CRC staff had a meeting with Cory Schaeffer, David Seay, Stephen Klos, and Cynthia Mabe from the VA Tax Team. They said that they thought that we could oversee the assessments, but we must use DPOR Licensed Assessors and that we should check our bylaws and the VA PDC bylaws to make sure that it was legal

for the CRC to do this.

CRC staff reached out to the **DPOR Licensed Assessors**, and they had this input:

# John Atkinson with Visions Governmental Solutions bought out Wampler, Eanes and Pearson.

- They would like to get a contract to do all 7 counties on a rotational basis.
- He wants to have lunch or some round table with all the counties to hear what they need in an Assessor and to speak from the Assessor's perspective.

Jason Cowan is an assessor and consultant.

- He would like to get a contract to do all 7 of our counties because he is planning to move to Nathalie, VA.
- He said that the PDC doing the procurement would be a valid option.
- He can do Eagle View, which is assessments by airplane/drone.

# Mathew Tumlin from Commonwealth Real Estate Appraisal Group.

- Right now, he is working in Lee County.
- He said Wise County has a full-time assessor and his Group would be cheaper than that
- He works on a price per parcel basis; he also does family cemeteries, prisons, and cell towers.

# Mike Wingate from Wingate and Associates Ltd.

- He needed the same questions asked as above to tell me if they could do all counties or not:
  - o Number of parcels per County
  - o Dates for Reassessments per County
  - o Number of Years between Reassessments per County

After a little discussion between the Board members, it was decided to set up a meeting with County Administrators and gather a list of questions for the assessors to address.

Council Member Comments: There were none.

Commonwealth Intergovernmental Review Process (CIRP): There were no comments.

Update - Drakes Branch Building Acquisition Project

As you may recall, the Town of Drakes Branch has been awarded a Hazard Mitigation Grant Program (HMGP) grant by FEMA through VDEM to fund the acquisition and removal of nine (9) buildings in the Town's Central Business District. These buildings are located within the floodplain and are subject to damage from flood events in the area. The HMGP grant is being matched with a combination of funds from the State and local matching funds from the Town. The CRC is assisting the Town with the implementation of this project.

# Update:

The CRC assembled and submitted a budget revision on behalf of the Town to cover the Lead and Asbestos activities. We are awaiting approval from FEMA.

Regional Reassessment Possibilities

DATE:

May 13, 2025

**Project:** At the March 19, 2025, CRC council meeting, Council members expressed interest in exploring the possibility of establishing a local firm to conduct reassessments for region. To learn more about this initiative, the CRC has been researching this initiative, coordinating and facilitating meetings, and sparking conversations on this topic.

**Project Update:** To better understand this initiative, the CRC staff reached out to other PDCs across the state and learned that similar efforts have been explored by other regions. Middle Peninsula PDC (MPPDC) even conducted a feasibility study to assess the potential benefits and challenges. The CRC also reached out to Northern Shenandoah PDC (NSPDC) who explored this option as well. Both PDC's selected not to move forward with establishing a regional reassessment firm and instead selected to move forward with a regional reassessment RFP.

Also in the CRC's research, we learned that the CRC did conduct a feasibility study on this topic back in 2008 and that the topic has been explored in 2014 as well. The CRC is conducting additional research to learn more about the outcome during this time and why this initiative did not move forward.

CRC staff is also in the process of researching other localities in the state that have their own reassessment offices and if any of these offices cover multiple counties.

On April 17<sup>th</sup>, CRC staff facilitated a meeting with all the counties and many Commissioners of Revenue were invited to participate with their County Administrators and staff. We listened to concerns from the Counties and ideas as to how the CRC could help. It was suggested that the CRC reach out to the VA Tax team and get some assistance.

On April 22<sup>nd</sup>, CRC staff had a meeting with Cory Schaeffer, David Seay, Stephen Klos, and Cynthia Mabe from the VA Tax Team. They said that they thought that we could oversee the assessments, but we must use DPOR Licensed Assessors and that we should check our bylaws and the VA PDC bylaws to make sure that it was legal for the CRC to do this.

CRC staff reached out to the DPOR Licensed Assessors, and they had this input:

- John Atkinson with Visions Governmental Solutions that bought out Wampler Page 26 and Eanes and Pearson.
  - They would like to get a contract to do all 7 counties on a rotational basis.

- He would like to have lunch or some round table with all the counties to hear what they need in an Assessor and he would like to speak from the . Assessor's perspective as well.
- He said that late RFPs made it hard to gear up for assessments, Assessors need about 18 months to properly plan for assessments.
- o Jason Cowan, he is an assessor and a consultant.
  - He says the most expensive and time-consuming part of the assessment are the site visits.
  - He said Caroline County is hiring an in-house assessor and he has helped them with this process.
  - He would like to get a contract to do all 7 of our counties because he is planning to move to Nathalie, VA.
  - He said that the PDC doing the procurement would be a valid option.
  - He has the capability to do Eagle View which is assessments by airplane/drone.
  - He also could do the permits on the new dwelling while doing the assessments year-round. They usually cost \$50-75 per dwelling.
- o Mathew Tumlin from Commonwealth Real Estate Appraisal Group.
  - Right now, he is working in Lee County.
  - He would need to know what else Counties expected such as mailing out assessments.
  - He works on a price per parcel basis, he also does family cemeteries, prisons, cell towers.
  - He would like to know the certain type of work each county wants done.
  - How many parcels per county do they want it bidded that way or not?
  - He can do the new permits when doing the regular assessments on a monthly basis.
  - He said Wise County has a full-time assessor and his Group would be cheaper than that.
  - He was going to try to send me Pulaski and Russell Counties RFP, so that I could see what those counties asked for.
- o Mike Wingate from Wingate and Associates, Ltd. Called and emailed with me.
  - He basically needed the same questions asked as above to tell me if they could do all counties or not:
    - Number of parcels per County
    - Dates for Reassessments per County
    - Number of Years between Reassessments per County

On May 27<sup>th</sup>, CRC Staff reached out to David Seay of the VA Tax Team to ask that he be a part of the upcoming meeting of County representatives to discuss their issues with the present and past Assessors. David said that he and his team would be at the meeting to listen to the concerns.

On June 5<sup>th</sup>, CRC Staff hosted a Reassessment Meeting. There were 23 in attendance with representatives from all seven counties, a representative from Southside Planning District, representatives from Brunswick County, and VA Tax team to discuss issues with current/past assessors. Some of the issues included:

- Since Vision Governmental Solutions has bought Wampler and Eanes and Pearson, are we going to still get a competitive rate for service?
- If we put out a bid to do all seven counties, could we get a better rate?
- All counties have different markets and have different Marketing studies, so it would not be one size fits all kind of job.
- The Assessor did not meet the completion deadline, which made the county late getting the budget completed.

- One person cannot do it all, there needs to be one accessor and several workers that go out to the site to actually look at the property.
- Workers did not actually come out to look at the property for one reason or the other. (Gates, way off the road, timber in the way)
- Not using fair market value, using a formula about figuring 80% of the value.

Tax said that a locality could hire its own person and there is a process where Tax can certify that person, but they do not have to be licensed through the state. The CRC could not do that, if they hired a person, that person must be a licensed assessor through DPOR.

One thing that Nottoway liked was the fact that the Assessor let the County Staff input the data to save some money and if there was an agreement, that should be an option.

It was suggested that at the VACO Annual Conference they have a session that involves Tax, Contractors, and localities.

Cost is not the only factor; there needs to be quality.

It would be better if local people were involved in the assessment because they would be more familiar with the area.

Next steps were that Christin Jackson would send an email to get the next start and proposed finish dates from each locality and create a Gantt chart to be ready to discuss with Assessors and for everyone to be prepared to tell their CRC representative their wishes or issues, so that it can be further discussed at the next CRC meeting.

TRRC and VDACS, AFID Planning & Infrastructure Grants

DATE: June 4, 2025

Project: The CRC assisted the Central Virginia Poultry growers since May of 2023 to find solutions for farmers who were affected by the Tyson closure in Glen Allen, Virginia. The growers came up with a solution – the creation of the Central Viginia Poultry Cooperative (CVPC). The Central Virginia Poultry Cooperative was created and has entered into an agreement with Dutch Country Organics, LLC of Middlebury, Indiana. CVPC will raise and sell wholesale cage-free and other premium table eggs to Dutch Country LLC. To assist with the start of costs for the CVPS, the Commonwealth Regional Council served as the applicant and fiscal agent obtaining the following grants: Virginia Department of Agriculture and Consumer Services (VDACS) Governor's Agriculture and Forestry Industries Development Fund (AFID) Planning Grant for \$35,000; VDACS, AFID Infrastructure Grant for \$50,000; VDACS, Rural Rehabilitation Trust for \$341,750; and the Virgina Tobacco Region Revitalization Commission (TRRC) Southern Virgina Program Grant for \$1,400,000 through two grants.

#### Project Update:

<u>VDACS, AFID Planning Grant:</u> The CRC is awaiting additional reimbursement documentation to reimburse the CVPC. The CRC has received each of the seven counties' match of \$5,000 for this grant.

<u>VDACS, Rural Rehabilitation Trust:</u> The CRC has submitted Year 1 expenses of \$170,857.00 for reimbursement. The CRC is awaiting additional reimbursement documentation to reimburse the CVPC.

<u>VDACS, AFID Infrastructure Grant:</u> The CRC has received each of the seven counties' match of \$3,000 for this grant. The CRC has reimbursed the CVPC \$18,463.00 of this match. The CRC is awaiting additional reimbursement documentation to reimburse the CVPC.

TRRC #1: The CRC has received the \$325,000 Advancement and has expended \$103,326.52. The CRC submitted the advancement request (request #3) to the TRRC for final approval. The CVPC, CRC, and TRRC staff are working through this matter to establish a timeline for at which a farm is considered profitable and are unable to submit new expenses to the TRRC for reimbursement.

TRRC#2: CRC staff are working with CVPC to assemble and submit the first reimbursement request.
